## SUMMARY

---

Computer Science graduate with a Data Science background and hands-on experience in data analysis, software development, databases, Quality Assurance, and technical project support. Skilled in Python, SQL, Power BI, data visualization, data cleaning, Exploratory Data Analysis (EDA), and database systems. Experienced in testing applications, identifying technical issues, supporting product development, and working with modern cloud-based platforms.

## PROFESSIONAL EXPERIENCE

---

2026

Technology & Product Operations | Calma Real Estate Company

- Supported Quality Assurance (QA) and technical reviews for digital platform features.
- Tested system functionality and identified bugs, issues, and improvement opportunities.
- Contributed to technical documentation, task tracking, and project roadmaps.
- Supported database, deployment, and cloud-based application workflows.

## EDUCATION

---

**Bachelor of Science in Computer Science – Data Science Track** Majmaah University | **2026 GPA: 4.31 / 5.00**

## LANGUAGES

---

Arabic – Native | English – Professional Working Proficiency

## CERTIFICATES

---

PCEP™ – Certified Entry-Level Python Programmer

## PROJECTS

---

- AI Face Recognition Attendance System
- Developed an automated attendance system using Python, Computer Vision, OpenCV, face recognition, and SQLite.
- Virtual Study Community Database System
- Designed and developed a database system using SQL Server, SQL, and SSMS to manage users and platform data.
- Data Analysis & Business Intelligence Projects
- Performed data cleaning, EDA, statistical analysis, data visualization, and Power BI dashboard development using Python and R.

## TECHNICAL SKILLS

---

- **Programming:** Python, SQL, R, C++.
- **Data Analysis:** Pandas, NumPy, Matplotlib, Data Cleaning, EDA, Statistical Analysis, Data Visualization.
- **Business Intelligence:** Power BI, Microsoft Excel, Dashboard Development.
- **Databases:** SQL Server, PostgreSQL, SQLite, SSMS.
- **Software & AI:** Machine Learning, Computer Vision, Face Recognition, Software Development.
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, VS Code, RStudio, Vercel.
- **Quality Assurance:** Software Testing, Bug Identification, Technical Documentation.
